PROFESSIONAL SUMMARY

Aspiring AI Infrastructure Engineer

Computer Applications graduate with a strong programming foundation in Python, PyTorch, and MySQL. Proven experience building end-to-end machine learning models, including facial recognition systems and web-integrated fraud detection apps using Flask. Ready to leverage advanced certifications in Deep Learning, Computer Vision, and Natural Language Processing to focus on scalable database structures and high-efficiency algorithm execution.

TECHNICAL SKILLS

- **Programming Languages:** Python, C++, Java, JavaScript, SQL
- **Frameworks & Libraries:** PyTorch, Scikit-learn, Pandas, NumPy, OpenCV
- **Web Technologies:** HTML5, CSS, Bootstrap, Flask
- **Database Management:** MySQL
- **Tools & Platforms:** Git, GitHub, VS Code

EDUCATION

Bachelor of Computer Applications (BCA)

NDRK First Grade College | Hassan University

2023 – 2026

CGPA: 8.4/10.0

PROJECTS

Implementation of PCA with ANN algorithm for Face recognition

Nov 2025 – Feb 2026

- **Technologies Used:** Python, OpenCV, NumPy, SciPy, PCA, ANN
- Developed a face recognition system using PCA for feature extraction and ANN for accurate face classification.
- Implemented image preprocessing, eigenface generation, and neural network training for facial recognition.

Auto Insurance Fraud Detection System using ML Algorithms

Mar 2026 – May 2026

- **Technologies Used:** Python, Flask, MySQL, Scikit-learn, Pandas, NumPy
- Developed a machine learning-based system to detect fraudulent claims by classifying user data metrics.
- Implemented data preprocessing, feature extraction, and evaluation metrics using Decision Tree, Naive Bayes, and KNN.
- Evaluated performance metrics using confusion matrices to improve system tracking logic and processing efficiency.

INTERNSHIP EXPERIENCE

Machine Learning Intern

Nov 2025 – Feb 2026

[Virtual Internship], [Online]

- Contributed to the development of a face recognition system using PCA and ANN algorithms.
- Implemented image processing and machine learning techniques for accurate face recognition.
- Participated in designing, training, and testing the face recognition model using Python and OpenCV.

CERTIFICATIONS

- **Neural Networks For Computer Vision and NLP** – Issued by NPTEL (2026)
- **Advanced in Deep Learning For Developer** – Issued by Infosys Springboard (2026)

ADDITIONAL INFORMATION

- **Achievements:** Actively participated in Buildathons and Hackathons.
- **Interests:** Database Management, Research and Innovation, Teaching.
- **Languages:** English (Fluent), Kannada (Native), Hindi (Basic)
